Child #1 Name _____ M/F DOB _____

Child #2 Name _____ M/F DOB _____

Please initial the following:

Assumption of Risk: I, being the parent or legal guardian of the child requesting workshop, class or event admittance, do hereby affirm that the applicant is in good health and suffers from no illness, disability or condition that requires the taking of medication on a regular basis unless that condition is disclosed and approved. Furthermore, I have no knowledge of any reason the applicant cannot participate in physical or academic activities.

____ I've read the above and agree.

Release of Liability: I understand that, as a condition of admittance, I, on behalf of the applicant, hereby release Snapology, and all other employees or agents of the workshop, class or event from any and all liability, from injury or illness, mental or physical, suffered by the applicant during or related to the camp, workshop or event unless caused by willful or gross negligence by the person or entity against whom the claim is made.

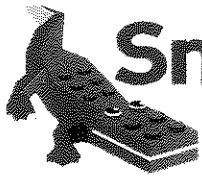

____ I've read the above and agree.

Payment Policies: All payments are due in full on or before the first day of class, workshop or other Snapology activity. In the event that the activity is canceled, due to low enrollment or any other reason, you will be refunded accordingly.

____ I've read the above and agree.

Medical Emergencies: I expressly agree to be responsible for any medical bills incurred in the treatment of any illness or accident. In the event of any such accident or injury, I hereby consent to allowing any of the workshop, class or event supervisors to procure any medical treatment deemed advisable on behalf of my child or ward without prior consent. No medical insurance is provided by Snapology.

____ I've read the above and agree.

Castles, Kingdoms, and Wizards

Who wouldn't want to escape and play in the world of magic, fairytales, and royalty? In Snapology's Castles, Kingdoms, and Wizards program, students will have the opportunity to use LEGO® bricks to design their medieval fantasies while also bringing the real history to life! Yes, your student will do more than just build with LEGO® bricks, they will build their historical understanding of the unique elements that make the medieval time period such a fascinating point in human history.

What the Students Will Learn

- **History**

In each lesson, students will take their understanding of medieval history and expand upon that knowledge by discussing the influences of the time. They will examine topics such as the significance and symbolism of royalty and knighthood, how social status influenced access to tools and transportation, the purpose and evolution of castles, and how the understanding and reception of magic has changed over time. This class is packed with historical investigations and your child is likely to walk away a young history buff!

- **Engineering**

In the process of building epic castle entrances, crowns that are fit for royalty, or transportation that can get you to the next kingdom, students will be challenged to design items that can stand up and hold together well. With each new building challenge, children will learn building and engineering strategies that will improve their natural engineering choices in the future.

- **Creativity**

Snapology's Castles, Kingdoms, and Wizards program encourages students to embrace their imagination and create familiar items with a unique, personalized twist. By using visual aids, holding creative classroom brainstorming sessions, and providing basic building parameters, students will be supported as they take creative risks and guided when they aren't sure what to build next.

- **Presentation Skills and Cooperative Play**

Presenting in front of others can be a stressful and overwhelming experience for young children, but our program aims to help your child feel more comfortable when presenting in front of a class by having each child explain their builds to their peers in a safe and supportive way. Presenting their creations will help with their confidence in front of others and will translate into their everyday self-assurance in the classroom.
